Twilight Time Twilight-90BR

Limited release of 1500 copies

Not strictly an audio release. This bluray features both feature films and has a separate score-only audio track with music from both films. "Thunderbirds are Go" also features the Shadows tracks "Lady Penelope" and "Shooting Star" as backing track without vocals. The "Thunderbird Six" score is remixed in stereo. Both scores are incomplete (no music where sometimes there is in the movie) and the opening of "Thunderbirds are Go" (assembly of Zero-X) is taken from the music/effects track as the studio reels have gone astray. The incidentals are taken from the studio

sessions and as such have not been lifted from the film track and may not always be in sync with the movie.

Thunderbirds are Go / Thunderbird Six

CD Lala Records LLLCD 1306

Limited edition of 1200 copies

The true incidentals of “Thunderbirds are Go” for the first time on record. Short incidentals have been joined into suites like the Fanderson records do. The CD does not include the Cliff & Shadows tracks from Thunderbirds are Go.

The Thunderbird Six tracks are largely identical to the 2004 MGM release but remixed in stereo.

(most of the tracks also feature on the Twilight Time bluray release of both movies Twilight-90BR as score-only track)

Gerry Anderson's Thunderbirds

Concorde Video

German re-release of the 2014 Twilight Zone Bluray with both feature films only but added German audio soundtrack. Not a limited edition and a lot cheaper than its American counterpart. Limited to region B/2.

Apparently better picture than the US release, but without the bonus items and music-only track. Hence a warning here: don't buy it if you're after the music track. Get the American bluray release or CD

Thunderbirds 50 Years

CD Fanderson FABTB19

CD Rambling Records for Deagostini RBCP-2607

Japanese release

Compilations of tv themes - renditions

Many re-issues have been published of the major themes by Barry Gray. Most of them also feature on the "No Strings Attached" album.

Only some CD releases are listed below.

Occasionally a track is not the original but a rendition by some other arranger or orchestra. It has been added because the music theme is not available in original form or because it is a good rendition.

double CD Neoplexx NPPX-20

Japanese release. Overlaps with Fanderson CD release but has other tracks. Reasonably faithful to the original incidental music, but definitely a rendition of these.

CD2 has 41 tracks, including one that seems an extended Doppelgänger Sleeping Astronauts theme.

Music could easily have fit on 1 CD
